Please note that reported Total Ergot Alkaloid concentrations are accurate up to 10,000µg/kg (ppb). Samples containing total ergot alkaloid concentrations exceeding 10,000ppb may have a higher ergot alkaloid concentration than reported. If you require an accurate total ergot alkaloid concentration on a sample known to contain greater than 10,000ppb, please specify on the submission form, as this requires a different method.
