\*Animals intended for human consumption will receive higher priority for testing.

\*\* Cause of Death: HUNT, SLAUGHTER, EUTHANIZED, FOUND DEAD

Meat from slaughter animals should not be released for human consumption until CWD results are received. Although there is no known human risk from CWD, it is prudent to be cautious and protect venison markets until science is conclusive.

I hereby authorize Prairie Diagnostic Services Inc. (PDS) to release the CWD test results to Livestock Branch Vet Unit. PDS will forward a copy of results for CWD testing to Livestock Branch Vet Unit, Room 202-3085 Albert Street, Regina SK S4S 0B1.
