Dear beef practitioners,

We are pleased to announce that PDS has established a formal relationship with Drs. John Campbell and Nathan Erickson to provide beef extension services for our beef clients. Dr. Campbell has been involved in teaching, research, and service at WCVI since 1991. Dr. Erickson has been involved in teaching, research and ruminant clinical field service at the WCVI since 2015.

Within this collaboration, Drs. Campbell and Erickson will:

- Provide consultation on:
 - diagnostic plans on complicated cases
 - clinical actions regarding PDS diagnostic cases
 - clinical problems with multiple cases submitted to PDS in multiple times
- Coordinate communications between PDS diagnosticians and clients on complex cases
- Make PDS aware of diagnostic test development needs and participate in PDS's test development planning
- Make PDS aware of your concerns on its services, and participate in developing solutions

The majority of consultation will be with beef and mixed animal veterinarians in western Canada. If you encounter matters that fit the above descriptions, please give Drs. Campbell and Erickson an email or call.

	Email	Phone
Dr. Campbell	john.campbell@usask.ca	1-306-966-7158
Dr. Erickson	nathan.erickson@usask.ca	1-306-966-7179

Please note that, for routine questions on individual diagnostic cases, you are still encouraged to contact our front office (306-966-7316) and/or the diagnostician in charge of the case.

We look forward to providing you value-added services through our collaboration with Drs. Campbell and Erickson.

Dr. Yanyun Huang

CEO and Anatomic Pathologist
